NOTIFICATION

The following submission, dated 21 March 2018, is being circulated at the request of the delegation of the **Russian Federation**. The notification concerns domestic support commitments (**Table DS:1** and the relevant supporting tables) for the calendar year **2016**.

The notification has been generated using the Online Agriculture Information Management System (AG-IMS) leading to some presentational differences compared to the previous domestic support notifications by the Russian Federation (including in particular the presentation of monetary values of support in "USD billion" as the online system seeks to align those with the currency and unit of the Scheduled Total AMS commitment level). As this is the first time that a domestic support notification by the Russian Federation incorporates these new presentational features, the notified information has also been included using the original submission by the Russian Federation in an annex.
