# USAGE OF SPECIAL AGRICULTURAL SAFEGUARDS

## SUBMISSION BY THE RUSSIAN FEDERATION

The following submission, dated 19 October 2018, is being circulated at the request of the delegation of the Russian Federation.

---

The present paper seeks to reflect the current state of play in the usage of special agricultural safeguards (SSG) and its effects on exports of WTO Members.

The following points are worth mentioning in this regard:

- Eight out of 33[1] Members possessing the right to apply SSG used this instrument in the past five years;

- SSG usage affects 78 WTO Members, including ten LDCs, and seven WTO Observer governments, including two LDCs, constituting major importers[2] in the markets of Members where SSG are applied;

- The coverage of products, subject to SSG rights, includes 183 product groups[3], out of which 77 product groups are affected by actual use of SSG;

- Affected product groups frequently comprise domestically sensitive products, for which tariff rate quotas are applied;

- Imports under tariff rate quotas and, possibly, imports under preferential trade regimes may not be affected by SSG usage. For this reason, SSG effects may be uneven among affected Members.

Effects of SSG application have to be further investigated. This issue may therefore require attention and due consideration of Members.

---

[1] Counting the European Union as one.
[2] Top-10/top-20 importers depending on the product at issue.
[3] Identified by HS 4-digit Headings.

## SSG Usage, 2005 – 2018[4]
