About the WTO

The World Trade Organization deals with the global rules of trade between nations. Its main function is to ensure that trade flows as smoothly, predictably and freely as possible.

About this publication

Services Profiles provides statistics on key infrastructure services (transportation, telecommunications, and finance and insurance) for some 140 economies.

The information is derived from national accounts, employment statistics, balance of payments statistics, foreign affiliates statistics, foreign direct investment statistics and quantitative indicators largely sourced from international/regional organizations and specialized bodies.

For more information

The statistical tables included in this publication can be downloaded from the WTO web site at www.wto.org/statistics

Introduction

Services Profiles provides users with statistics on key infrastructure services (transportation, telecommunications and finance and insurance) for some 140 economies. Coverage will be gradually expanded for future editions.

The information is derived from national accounts, employment statistics, balance of payments statistics, foreign affiliates statistics, foreign direct investment statistics and quantitative indicators largely sourced from international/regional organizations and specialized bodies. These statistics are presented in a standardized format for quick reference.

The first section provides a snapshot of the importance of services in the economy.

- Basic indicators – GDP, services and infrastructure services value added, employment in services, foreign direct investment (FDI) in services, services sectors with GATS (General Agreement on Trade in Services) commitments, services economic integration agreements notified to the WTO.
- Trade (balance of payments) – commercial services exports and imports by main services sectors (transportation, travel, other commercial services), main destinations, net commercial services trade.
- Foreign affiliates statistics (FATS) sales – inward and outward sales.
- Production and employment – value added and employment. Transportation statistics include quantitative indicators, e.g. the total number of passengers or freight transported by air or by sea.
- Transportation statistics also include other trade-related indicators – quantitative indicators strictly related to external trade, e.g. international freight loaded by air or by sea.
- Trade (balance of payments) – Imports and exports of transportation services, telecommunications services, financial services, and insurance services. For transportation services, statistics include share of sea, air and other types of transport (rail, road, etc.).
- Investment abroad – outward FDI stocks and flows.

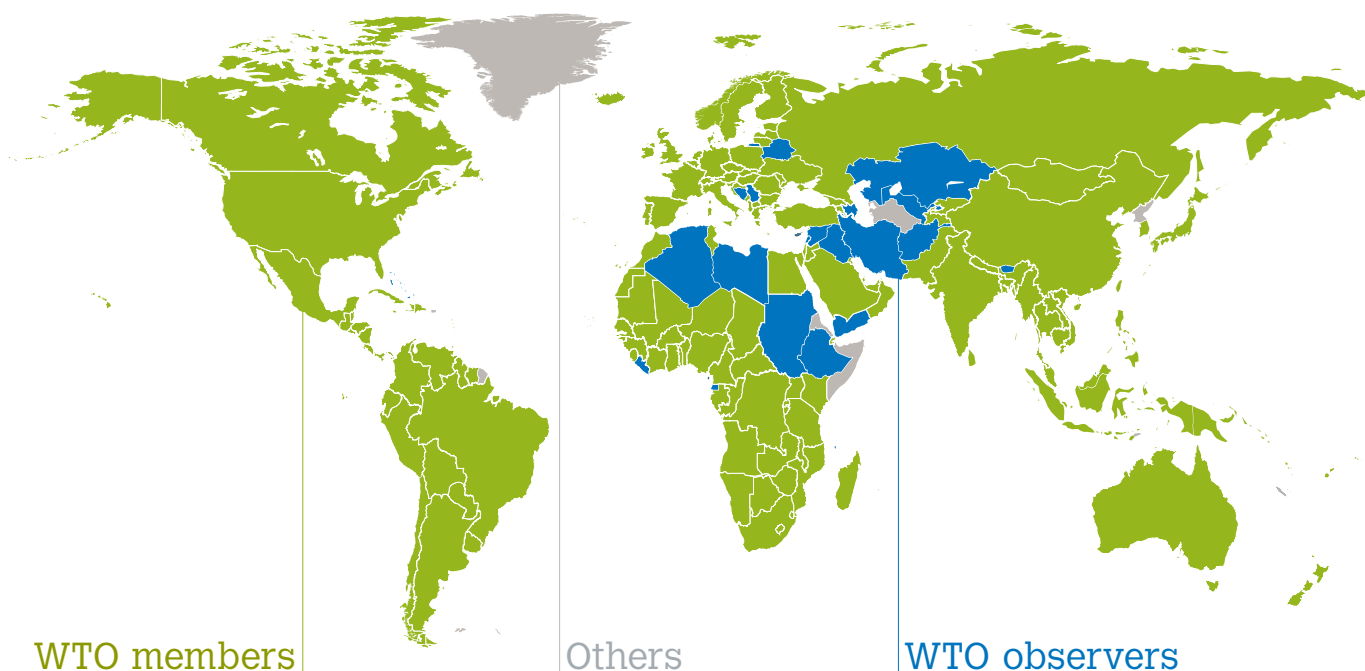

Statistics are provided for the three infrastructure services sectors (transportation, telecommunications, finance and insurance).

- Investment in economy – gross fixed capital formation, inward FDI stocks and flows.
- Market indicators – for transportation, e.g. maritime merchant fleet, road and rail lines. For telecommunications, e.g. total telephone subscribers or secure Internet servers. For finance and insurance, e.g. the domestic credit provided by the banking sector as ratio to GDP or insurance density.

Shares in world trade or rankings, as appropriate, are provided whenever possible.

WTO members and observers

WTO members (as of 15 August 2013)

Albania	Cuba	India	Mozambique	Solomon Islands
Angola	Cyprus	Indonesia	Myanmar	South Africa

Technical notes

General note

Annual average percentage changes are calculated using a geometric average.

Minor discrepancies between constituent figures and totals are due to rounding.

Comments and enquiries on this booklet should be addressed to statistics@wto.org.

These profiles reflect data as contained in the WTO's I-TIP Services database in July 2013.

GDP (gross domestic product) is the sum of output within the country's territory minus the sum of intermediate consumption (increased by taxes net of subsidies on products). *Sources: World Bank, Eurostat and national sources.*

Services value added, employment in services and FDI in services – stocks cover the following ISIC Rev. 3 sectors: wholesale and retail trade; repair of motor vehicles, motorcycles and personal and household goods; hotels and restaurants; transport, storage and communications; financial intermediation; real estate renting and business activities; education; health and social work; other community, social and personal services; private households with employed persons.

For some economies, data cover the following ISIC Rev. 4 sectors: wholesale and retail trade; repair of motor vehicles and motorcycles; transportation and storage; accommodation and food service activities; information and communication; financial and insurance activities; real estate activities; professional, scientific and technical activities; administrative and support service activities education; human health and social work activities; arts, entertainment and recreation; other service activities; activities of households as employers; undifferentiated goods- and services-producing activities of households for own use.

For economies sourced from Eurostat, the classification used is NACE Rev. 2. For the United States is NAICS. Despite the different industry classifications used, economies' statistics are largely comparable. *Sources: UNSD, UNCTAD, OECD, ILO, Eurostat, and national sources.*

Infrastructure services value added cover transportation services, telecommunications services, financial and insurance services.

Commercial services equal services minus "government services, not included elsewhere". *Sources: IMF, Eurostat, OECD, UNSD, national sources and WTO-UNCTAD estimates.*

Exports of commercial services (% of GDP) is estimated as an economy's exports of commercial services divided by GDP. GDP is measured in nominal

terms and with market exchange rates. *Source: WTO estimates.*

Exports of commercial services (% of goods and commercial services exports) is estimated as an economy's exports of commercial services divided by the sum of exports of goods (balance of payments basis) and commercial services. *Source: WTO estimates.*

Other commercial services include communications services; construction; insurance services; financial services; computer and information services; royalties and licence fees; other business services; personal, cultural and recreational services. *Sources: IMF, Eurostat, OECD, UNSD, national sources and WTO-UNCTAD estimates.*

Foreign direct investment (FDI) reflects the objective of obtaining a lasting interest by a resident entity in one economy ("direct investor") in an entity resident in an economy other than that of the investor ("direct investment enterprise"). *Sources: OECD, UNCTAD and Eurostat.*

Total services sectors with GATS commitments has been established by the WTO Secretariat on the basis of available information and in the light of the Services Sectoral Classification List (MTN.GNS/W/120). The total number of sub-sectors is in the order of 160. *Source: WTO.*

Services EIAs notified to the WTO: number of services economic integration agreements (EIAs) notified to the WTO Secretariat under Article V of the GATS. *Source: WTO.*

FATS (foreign affiliates statistics) refer to data for foreign affiliates for which foreign investors own more than 50 per cent of the voting power or equity interest. **Sales** measure gross operating revenues, less rebates, discounts and returns. In the profiles, FATS sales refer to affiliates primarily engaged in services activities and exclude wholesale and retail trade and repair activities. *Sources: WTO estimates based on OECD and Eurostat data as well as national sources.*

Gross fixed capital formation is a measure of the net investment by enterprises, government and households in the domestic economy in fixed capital assets (i.e machinery and buildings). *Sources: UNSD, OECD, and Eurostat.*

Transportation

Unless otherwise indicated, **inward and outward FDI, value added and employment** cover the transportation and storage industry (ISIC Rev. 3 categories from I-60 to I-63 or ISIC Rev. 4 categories from H-49 to H-53). *Sources: UNSD, OECD, UNCTAD, Eurostat, ILO, as well as national sources.*

Transportation services (balance of payments) cover sea, air and other including land, internal waterway, space and pipeline transport services that are performed by residents of one economy for those of another and that involve the carriage of passengers, the movement of goods (freight), rentals (charters) of carriers with crew, and related supporting and auxiliary services. *Sources: IMF, Eurostat, OECD, UNSD, national sources and WTO-UNCTAD estimates.*

Maritime transport

Maritime merchant fleet. Number of merchant ships registered at a given date in a country and authorised to navigate at sea. DWT (deadweight ton) is a weight measure of a vessel's carrying capacity. *Source: UNCTAD.*

Container port traffic measures the flow of containers from land to sea transport modes, and vice versa, in twenty-foot equivalent units (TEUs), a standard-size container. *Source: Containerisation International (through the World Bank).*

International freight by sea represents the weight of all goods and livestock in external trade loaded on sea-going vessels of all flags at the ports of the country. *Sources: UN Monthly Bulletin of Statistics (MBS), UNCTAD and Eurostat.*

Air transport

Passengers – freight – international freight – international passengers refer to revenue scheduled traffic of airline(s) registered in the country. A passenger-kilometre is performed when a passenger is carried by one kilometre. A ton-kilometre equals the tons of freight carried by the kilometres flown. *Sources: ICAO and Eurostat.*

Road transport

Road lines, total network includes all the roads in the country. *Sources: International Road Federation (IRF) supplemented by World Bank estimates, Eurostat.*

Passengers is the number of passengers transported by road multiplied by the kilometres travelled.

Freight is the volume of goods transported by road vehicles, measured in millions of tons multiplied by the kilometres travelled. *Sources: International Road Federation (IRF) supplemented by World Bank estimates, Eurostat.*

International freight refers to goods which having been loaded on a road vehicle in the country, left the country by road and were unloaded in another country. *Sources: UNECE and Eurostat.*

Rail transport

Rail lines, total network includes all rail lines reported from the country. *Sources: International Union of Railways (UIC), World Bank, and Eurostat.*

Passengers is the number of passengers transported by rail multiplied by the kilometres travelled. **Freight** is the volume of goods transported by rail, measured in millions of tons multiplied by the kilometres travelled. *Sources: International Union of Railways (UIC) and Eurostat.*

Telecommunications

Unless otherwise indicated, **inward and outward FDI, value added and employment** cover the telecommunications industry (ISIC Rev. 3 category I-642 or ISIC Rev. 4 J-61). *Sources: UNSD, OECD, Eurostat, as well as national sources.*

Telecommunications services (balance of payments) encompass the transmission of sound, images or other information by telephone, telex, telegram, radio and television cable and broadcasting, satellite, electronic mail, facsimile services etc., including business network services, teleconferencing and support services. Also included are cellular telephone services, internet backbone services and on-line access services, including provision of access to the internet. *Sources: IMF, Eurostat, OECD, UNSD, national sources and WTO-UNCTAD estimates.*

Total telephone subscribers refers to the sum of main telephone lines and cellular mobile subscribers. Aggregate calculated by the WTO on the basis of *International Telecommunication Union (ITU)* free statistics.

Symbols and abbreviations

...	Not available or not reported
–	Not applicable
inhab.	Inhabitant
Intl.	International
km	Kilometre
mill.	Millions
no.	Number
P-Km	Passenger-Kilometre
tel.	Telephone
ton-km	Ton-Kilometre
tot.	Total
'000 DWT	Thousands of deadweight tons
'000 TEUs	Thousands of twenty-foot equivalent units
EIAs	Economic Integration Agreements
FDI	Foreign Direct Investment
FATS	Foreign Affiliates Trade in Services Statistics
GATS	General Agreement on Trade in Services
GDP	Gross Domestic Product

Mobile phone subscribers refers to the subscriptions to a public mobile telephone service and provides access to Public Switched Telephone Network (PSTN) using cellular technology, including number of pre-paid SIM cards active during the past three months. This includes both analogue and digital cellular systems (IMT-2000 (Third Generation, 3G) and 4G subscriptions, but excludes mobile broadband subscriptions via data cards or USB modems. Subscriptions to public mobile data services, private trunked mobile radio, telepoint or radio paging, and telemetry services should also be excluded. This should include all mobile cellular subscriptions that offer voice communications. *Source: International Telecommunication Union (ITU).*

Internet users refers to the estimated number of internet users out of total population. This includes those using the internet from any device (including mobile phones) in the last 12 months. *Source: International Telecommunication Union (ITU).*

Broadband internet subscribers refers to subscriptions to high-speed access to the public Internet (a TCP/IP connection), at downstream speeds equal to, or greater than, 256 kbit/s. This can include, for example, cable modem, DSL, fibre-to-the-home/building and other fixed (wired) broadband subscriptions. This total is measured irrespective of the method of payment. It excludes subscriptions that have access to data communications (including the Internet) via mobile cellular networks. If countries use a different definition of broadband, this should be indicated in a note. It should exclude technologies listed under wireless broadband category. *Source: International Telecommunication Union (ITU) and Eurostat.*

Secure internet servers are servers using encryption technology in internet transactions. *Source: Netcraft (through the World Bank).*

Finance and insurance

Unless otherwise indicated, **inward and outward FDI, value added and employment** cover the financial intermediation industry (ISIC Rev. 3 category J or ISIC Rev. 4 K). *Sources: UNSD, OECD, ILO, Eurostat, as well as national sources.*

Financial services

Financial services (balance of payments) cover financial intermediation and auxiliary services provided by banks, stock exchanges, factoring enterprises, credit card enterprises, and other enterprises. *Sources: IMF, Eurostat, OECD, UNSD, national sources and WTO-UNCTAD estimates.*

Domestic credit by the banking sector includes all credit to various sectors on a gross basis, with the exception of credit to the central government, which is net. The banking sector includes monetary authorities and deposit money banks, as well as other banking institutions. *Sources: IMF; World Bank and OECD for GDP estimates.*

Interest rate spread is the interest rate charged by banks on loans to prime customers (lending rate) minus the interest rate paid by commercial or similar banks for demand, time, or savings deposits (deposit rate). *Source: IMF.*

Market capitalization of companies listed on the country's stock exchange(s) is the share price multiplied by the number of shares outstanding. *Sources: Standard & Poor's (through the World Bank); World Bank and OECD for GDP estimates.*

Insurance services

Insurance services (balance of payments) cover the provision of various types of insurance to non-residents by resident insurance enterprises, and vice versa, for example, freight insurance, direct insurance (e.g. life) and reinsurance. *Sources: IMF, Eurostat, OECD, UNSD, national sources and WTO-UNCTAD estimates.*

Insurance density represents the average insurance spending per capita in a given country. It is calculated by dividing direct gross premiums (total premiums paid) by the population. It excludes cross-border business. *Source: SwissRe, Sigma No. 3/2012.*

Insurance penetration represents the relative importance of the insurance industry in the domestic economy. It is calculated as the ratio of direct gross premiums (total premiums paid) to GDP. It excludes cross-border business. *Source: SwissRe, Sigma No. 3/2012.*

EU(27) refers to the EU members as of January 2007, including EC-12 members (Belgium, Denmark, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain and the United Kingdom) and Austria, Bulgaria, Cyprus, Czech Republic, Estonia, Finland, Hungary, Latvia, Lithuania, Malta, Poland, Romania, Slovak Republic, Slovenia and Sweden. The Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu is referred to as Chinese Taipei in the tables.

a Includes the postal sector.

b Insurance activities and activities auxiliary to financial and insurance activities are not covered. Excludes real estate activities.

c Refers to the sales of affiliates which are established outside the EU (27) and controlled by EU (27) entities.

d Excludes more than 30,000 small private planes.

e Only motorways.

f Million passengers. Data on international passengers refer to the number of passengers transported by air to extra-EU (27) destinations.

g Million tons. Data on international freight refer to freight transported by air to extra-EU (27) destinations.

h Data cover only the haulage of heavy goods vehicles (usually >3.5 tonnes load capacity) registered in the EU (27). Includes cross-trade and cabotage.

i Goods transported by sea to extra-EU (27) destinations handled by main ports only (ports handling more than 1 million tons of goods or 200 000 passengers annually). In 2010, freight handled by main ports accounted for some 80 percent of the total freight handled by all ports.

Services Profiles provides statistics on key infrastructure services (transportation, telecommunications, and finance and insurance) for some 140 economies. On one page for each economy, the Profiles gather an invaluable number of statistical indicators of these sectors, making the publication a quick reference tool for market conditions and trade in services in the respective sectors. The information is derived from national accounts, employment statistics, balance of payments statistics, foreign affiliates statistics, foreign direct investment statistics and quantitative indicators largely sourced from international/regional organizations and specialized bodies.
